Outcome Budget 2025-2026

MINISTRY OF FINANCE

OUTPUT OUTCOME FRAMEWORK 2025-26
(MAJOR CENTRAL SECTOR &
CENTRALLY SPONSORED SCHEMES)

Preface

The Government of India has undertaken major expenditure reforms over the last few years. This not only includes simplification of appraisal and approval processes but also structural changes in the budget-making process itself, such as eliminating the Plan / Non-plan distinction. As a result, the cost centres are being treated in an integrated manner within only the statutory revenue capital framework. This enables another major structural reform, which is to bring public schemes under a monitorable output-outcome framework.

Since 2017-18, in addition to the financial outlays of the Ministries/Departments schemes being indicated in the Budget document, the expected outputs and outcomes of the schemes are also presented in a consolidated Outcome Budget document, along with the regular Budget. These Outlays, Outputs and Outcomes are being presented to the Parliament in measurable terms, bringing greater accountability to the agencies involved in executing government schemes. The outlay is the amount that is provided for a given scheme in the Budget, while Output refers to the direct and measurable product of scheme activities, often expressed in physical terms or units. Outcomes are the collective results or qualitative improvements brought about in delivering these services.

The Outcome Budget for the year 2025-26 presents (a) the financial outlay, (b) clearly defined outputs and outcomes statement, (c) measurable output and outcome indicators, and (d) specific output and outcome targets. This will significantly enhance transparency, predictability and ease of understanding of the Government's development agenda.

Through this exercise, the Government aims to nurture an open, accountable, proactive and purposeful style of governance by transitioning from mere outlays to result-oriented outputs and outcomes. This effort will enable Ministries/Departments to keep track of the scheme objectives and work towards the development goals they have set. The document being presented here is an extract out of the Outcome Budget 2025-26 and contains the Output-Outcome Framework for major Central Sector (CS) Schemes and Centrally Sponsored Schemes (CSS) with outlay greater than or equal to Rs.500 crore in FY 2025-26. Hence, this document covers 165 CS/CSS schemes.

Acknowledgements

The Output-Outcome Monitoring Framework 2025-26 results from various stakeholders' cooperation, teamwork and collaboration across Ministries/Departments.

It would not have been possible to deliver the exhaustive framework without the relentless help and support of the Division heads in-charge of various CS and CSS schemes and nodal officers of all the Ministries/Departments under the leadership of their Secretaries.

The framework has benefitted extensively from the assistance provided by the subject matter verticals, Smt. Nidhi Chhibber, DG, Shri Surender Mehra, Advisor (A&F), Dr. Radha R Ashrit, DDG, Dr. Devi Prasad Bhukya, Director and the team at the Development Monitoring and Evaluation Office (DMEO) under the leadership of Shri Suman Bery, Vice-Chairman NITI Aayog, and Shri BVR Subrahmanyam, Chief Executive Officer, NITI Aayog.

Furthermore, I would like to thank all the officials of the Budget Division in the Department of Economic Affairs for their unflinching support towards creating this framework. In addition, I extend my gratitude to all my team members of the Department of Expenditure with a special mention to the financial advisors of the ministries and departments who reposed their belief in this document.

Lastly, I would like to express my sincere gratitude to the Hon'ble Finance Minister, Smt. Nirmala Sitharaman and Hon'ble Minister of State (Finance), Shri Pankaj Chaudhary for their guidance in enabling us to take this important step forward towards achieving the goal of transparent and accountable expenditure management.

²³ Assuming 10 % increase in participants in awareness camp from previous OOMF 2024-25 on the basis of upcoming mandis.

²⁴ Since, the procurement/coverage under Price Support Scheme (PSS) and Price Deficiency Payment Scheme (PDPS) under PM-AASHA entirely depends upon the market scenario and the decision of States Govts/UTs, therefore the target /achievement may not be fixed under these schemes. Under PSS, Government has provided Government Guarantee amounting to Rs.45,000/Cr .for extending cash credit facilities to Central Nodal Agencies i.e .NAFED and NCCF for procurement of pulses, oilseeds & copra at Minimum Support Price (MSP). Central Nodal Agencies withdraw the required funds against the Government Guarantee for making payment of MSP value to farmers and other incidental costs involved in the PSS operations. States/UTs have options to choose either PSS or PDPS in a given procurement season with respect to a particular oilseed crop for the entire State. Under MIS, concerned State Govt/UT provides capital funds to state designated agencies for making payment to farmers and other incidental costs involved in the operation .The provisions of budgetary funds are meant for meeting losses to be incurred in such operations .The indicative budgetary estimates are based on previous year's demand of the schemes and gets revised as per the actual requirement.

18,232.50	1. In the period 01.04.2025 to 31.03.2026, the Number of Shipping Bills (SBs) filed with RoDTEP claim and Numbers of SBs scrolled out.	1.1. Total Number of shipping bills which were filed with a RoDTEP claim/ scheme code in the period of 01.04.2025 to 31.03.2026.	Target not amenable. ⁴⁶	1. The RoDTEP Scheme is based on the principle that taxes should not be exported, and ensures zero-rating of exports, to make them competitive. ⁴⁷	1.1 % of fund utilization from the allocated fund.	Target not amenable. ⁴⁸
		1.2. Number of shipping bills for which an e-script has been issued in the period of 01.04.2025 to 31.03.2026.				

⁴⁶ The % of shipping bills for which e-scripts are not issued as on 30.04.2026 should not be more than 0.5 % of all shipping bills filed with RoDTEP claim in the period 01.04.2025 to 31.03.2026.

⁴⁷ Therefore, any outcome targets for implementing the scheme cannot be devised. Exports depend on multiple factors and one to one correlation with any export growth to any support given under RoDTEP may not be technically correct.

⁴⁸ The % of budget utilization within a financial year should reach 95% of the allocated budget so that roll-over remains minimum and liquidity of exporters remains high.

²⁰⁵ These targets have been set and are subject to change based on the status of funds available/constraint from the Centre. Also, it is to be informed that if approval of cabinet is not received for additional funds, targets for FY 2024-25 will not be met which can be seen from slow achievement during third quarter. Therefore, targets would undergo significant change for the current year.

1. Employees Pension Scheme, 1995 (CS)

FINANCIAL OUTLAY (Rs in Cr)	OUTPUTS 2025-26			OUTCOMES 2025-26		
	2025-26	Output	Indicators	Targets 2025-26	Outcome	Indicators
11,250	1. Provision of Pensions	1.1. % of new EPF members eligible for Government Contribution (2025-26) ²⁰⁷	60	1. Speed	1.1. % of timely disbursal of total pension (within 7 days)	100
		1.2. % of beneficiaries receiving Minimum Pension (2014 onwards) ²⁰⁸	25			
		1.3. % of beneficiaries provided with Life Certificate through Digital AADHAR based Jeevan Praman Patra ²⁰⁹	100			

²⁰⁷ Target of 60 has been set as the wage ceiling is Rs. 15,000/- from 01.09.2014. Only EPF members having salary up to wage ceiling become entitled for EPS membership and 1.16 Government Contribution. Since most of the new members joining have wages more than Rs. 15,000/-, so they are not eligible for 1.16 Government Contribution. A target of 100 can be kept, however, it would be effective only when membership of EPS is made mandatory up to wage ceiling for all members. [Numerator: Total new EPF members receiving Government Contribution (2025-26); Denominator: Total new EPF members (2025-26)]

²⁰⁸ It captures the number of beneficiaries whose pension as per formula is less than Rs. 1,000/- (due to low contribution or less pensionable service). The pension is brought to Rs. 1,000/- by Government Contribution. Hence, accurate target setting is difficult. Target of 25 has been set by taking numerator as 19,87,338 (achievement of FY 2023-24) and denominator as 78,66,628 (as per data on EPFO dashboard). [Numerator: Total EPF members receiving ₹1,000 pension; Denominator: Total EPS pensioners (1995 onwards)]

²⁰⁹ The target can be kept as 100 subjects to (i) only those pensioners be treated as beneficiaries who are receiving pension after submitting their DLCs i.e. as soon as the pension is stopped for want of DLC, that pensioner shall not be considered as a beneficiary; and (ii) the target of 100 may not be achieved as there would be certain cases of updation of Life Certificate by their submission in paper form like medical compulsions, etc.

²¹³ Dependency factors: Actual allocation of funds under the Scheme and the implementation of Scheme at the end of State Government /High Courts.

²¹⁴ Calculation: - Gap = Sanctioned strength – Total completed; % Reduction in gap = (Gap in previous year - Gap in current year) *100/ Gap in previous year. Accordingly, at present there is a gap of around 2135 between sanctioned strength (25,725) and availability of court halls (23,590). 831 court halls will lead to reduction of around 39% gap between sanctioned strength and court halls available

²¹⁵ Calculation: - Gap = Sanctioned strength – Total completed; % Reduction in gap = (Gap in previous year - Gap in current year) *100/ Gap in previous year. Accordingly, at present, there is a gap of around 4629 between sanctioned strength (25,725) and available residential units (21,096). 873 residential units will lead to reduction of around 19% gap between sanctioned strength and residential units available

²⁵⁸ At present, LPG coverage is more than 100%, therefore the additional cash transfer compliant beneficiaries and total no of LPG (DBT) beneficiaries that will be added in the year 2025-26 will be based on the applications received by Oil Marketing Companies (OMCs) and will thus be demand driven. No targets can hence be set.

²⁵⁹ Now the subsidy is transferred through PFMS system of GOI, hence this parameter will be beyond the direct control of OMCs / MoP&NG.

³⁴⁵ State of West Bengal is not implementing the Scheme Women Help Line (181) and target is Cumulative

³⁴⁶ The target for WHL is not amenable for emergency + non-emergency. Since WHL deals with women affected by violence, aiming a target for the number of women seeking assistance/ number of distressed women seeking help cannot be considered an outcome, and there cannot be a defined objective to give a target for the indicators.
