A: Statement of Risks

All investments in shares, options or SARs are subject to risk as the value of shares may go down or go up. In addition, the options / SARs are subject to the following additional risks:

1. Concentration: The risk arising out of any fall in value of shares is aggravated if the employee's holding is concentrated in the shares of a single company.
2. Leverage: Any change in the value of the share can lead to a significantly larger change in the value of the options / SARs.
3. Illiquidity: The options / SARs cannot be transferred to anybody, and therefore the employees cannot mitigate their risks by selling the whole or part of their benefits before they are exercised.
4. Vesting: The options / SARs will lapse if the employment is terminated prior to vesting. Even after the options / SARs are vested, the unexercised options / SARs may be forfeited if the employee is terminated for gross misconduct.

- 3 Risk Factors: Management perception of the risk factors for the company (i.e., sensitivity to foreign exchange rate fluctuations, difficulty in availability of raw materials or in marketing of products, cost/time overrun etc.).
- 4 Continuing disclosure requirement: The option or SAR grantee shall be provided copies of all documents that are sent to the members of the company. This shall include the annual accounts of the company as well as notices of meetings and the accompanying explanatory statements.

It shall not be necessary to include this Part if it has already been provided to the employee in connection with a previous grant, and no changes have taken place in the scheme since then. If the scheme administrator (whether the company itself or an outside securities firm appointed for this purpose) provides advisory services to the grantees in connection with the exercise of options or SAR, as the case may be, or sale of resulting shares, such advice must be accompanied by an appropriate disclosure of concentration and other risks.
